The next Winter Meeting of the Society will be held on 1-3rd March 2017 at the Royal College of Physicians (RCP), in London (www.rcpevents.co.uk) that provides excellent facilities and a convenient central location.

Proceedings will commence on the afternoon of Wednesday 1st March with a Symposium entitled: “Small vessel disease” organised by Professor Colin Smith, Edinburgh University.

The Alfred Meyer Memorial Lecture entitled: “The neuropathology of vascular dementia and vascular cognitive impairment” will be delivered by Professor Harry Vinters, Chief of Neuropathology UCLA Medical Center, on Wednesday afternoon. This will be followed by a drinks reception at the RCP.

On Thursday and Friday there will be a full programme of talks and posters. See the website of the British Neuropathological Society (www.bns.org.uk) for more information.

Programme of the Symposium

13:15 Registration
14:00 Welcome and introduction –Professor Colin Smith, UK
14:15 Epidemiology and clinical aspects of small vessel disease- Professor David Werring, Professor of Clinical Neurology, UCL Institute of Neurology.
14:45 Animal Models of Small Vessel Disease- Dr Atticus Hainsworth, Senior Lecturer in Cerebrovascular Disease, St. George’s University of London.
15:15 Molecular Mechanisms of CAA- Professor Roxana Carare, Professor of Clinical Neuroanatomy, University of Southampton.
15.45: Tea break
16:15 Post mortem biochemical assessment in relation to vascular contributions to dementia- Dr Scott Miners, Clinical Neurosciences Research Fellow, University of Bristol.
16:45 Notch3 mutations and vascular disease- Professor Anne Joutel, Director of Research INSERM Genetics of Vascular Diseases Unit
17:15: short break
17:30 Alfred Meyer Memorial Lecture
The neuropathology of vascular dementia and vascular cognitive impairment- Professor Harry Vinters, Chief of Neuropathology UCLA Medical Center
18:30 RECEPTION
